RAILROAD LAND TAXATION.

The House to Inquire Into the Telephone Patent Suits—A Letter From Lamar.

[Special to the Herald by the Associated Press]

SENATE.

WASHINGTON, February 15.—The following letter was to-day sent to the President pro tem of the Senate:

DEPARTMENT OF THE INTERIOR, WASHINGTON, February 13.

President pro tempore of the Senate: SIR:—I have the honor to acknowledge the receipt of Senate resolution of the 5th instant, in words as follows:

"*Resolved*, That the Secretary of the Interior be directed to communicate to the Senate copies of all papers which have been filed in the Interior Department and of all papers which have been presented to any officer of that Department touching the official and personal conduct of Henry Ward, Indian Inspector, during his continuance in said office."

I transmit all of the official papers on file in the Department which I understand to be embraced by the resolution. The official reports made to this Department by Henry Ward as United States Indian Inspector are voluminous, and as the clerical force of this Department is limited and otherwise fully employed, I have deemed it best to transmit the original reports, and as they are frequently consulted in the transaction of the business of the Department I have the honor to request that they be returned to the file as soon as they are no longer required by the Senate. I am directed by the President to say that if the object of the resolution is to inquire into the reasons for the suspension of Ward these papers are not to be considered as constituting all of the evidence submitted to him in relation thereto. I am also directed by the President to say that he does not consider it consistent with public interest to transmit copies of unofficial papers from private citizens held in my custody for him which relate exclusively to the suspension of incumbents. I have the honor to be,

Very respectfully,
L. Q. C. LAMAR, Secretary.

There are 282 enclosures. The letter and accompanying papers were referred to the Committee on Indian Affairs.

Mr. Hawley presented a bill which was referred to the Committee on Public Lands, relating to the taxation of railroad lands and for other purposes. Mr. Hawley said that the bill related to a very sore subject. An exceedingly large quantity of land, perhaps 60,000 square miles, had been granted to the Northern Pacific Railroad Company, but it was provided by an amendatory act of Congress that no patents should issue for the land until after payment by the company of all fees relating to the surveys, etc. The fee was only about 3 cents an acre, and the railroad had paid fees upon only about 80,000 acres of its immense grant. It had, nevertheless, proceeded to give to settlers warranty deeds for many millions upon millions of acres of land. The company had ingeniously got property enough to try to locate villages and cities upon its own selected sections. These lands that the company conveyed by warranty deed had been settled and improved, and in many cases thriving villages have grown up on them. It turns out now that by a recent decision of the Supreme Court of the United States none of these millions of acres were taxable. The reasons given by that Court were irrefragable, but Congress should immediately provide by law a remedy for the difficulty involved. The railroad had refused to pay three cents an acre, and the communities interested therein now find themselves without the power of taxation. Some of the people, however, had paid taxes, and these people were without remedy. A few foreign corporations being large holders, had paid taxes under protest, and their rights had thus been made by suggestion of the railroad company. Counties and communities therefore were liable to large claims for taxes which had been paid, besides which about nine-tenths of their tax lists had been destroyed and they were almost bankrupt. The people interested had an exhaustive conversation with the railroad president and the General Land Office of the government. The one declined to take remedial action for one reason and the other for another reason, and the only help for this very serious matter lay with Congress.

Mr. Teller said that the fault lay with Congress. The Executive Departments of the government had for years been reporting to Congress the full measure of the evil referred to and had requested legislation to enable the Executive to protect the settlers. In three reports made to Congress by himself as Secretary of the Interior the subject had been plainly set forth. It was a crying evil and should be remedied by Congress.

Mr. Plumb was glad to see so much interest aroused on this subject. He (Mr. Plumb) had himself on two separate occasions introduced into the senate bills to provide for the taxation of the lands of the Northern Pacific railroad.

Mr. Conger, from the Committee on Post Offices and Post Roads reported favorably a bill granting Mrs. Julia D. Grant franking privilege. Passed.

On motion of Mr. Dawes the Senate took up and passed a bill reported from the Committee on Indian Affairs for the relief of the Mission Indians in California.

Mr. Morgan took the floor and resumed his argument against the constitutionality of the pending education bill. Mr. Morgan said he had often heard it remarked that the people of the Southern States were a hoodwinked lot of slaves who had been forced into rebellion and secession by their leaders. This he emphatically denied, and asserted that on the contrary the leaders had been forced into secession by the people, and that many a cowardly heart among the leaders would have failed and fainted but for the fact that those leaders knew they did not dare to do so in the presence of the faith of an enlightened and splendid people. He characterized the bill under debate as a bribe to the South, but for his part he neither grew blind nor shut his eyes in the presence of any bribe, no matter how magnificent. The bill would prove a Pandora's box, and would lead to what had not inappropriately been termed the condition of an organized hell between the States and the general government. He prophesied that under its baneful influence we would see the people of the North and South again frenzied with excitement.

At the conclusion of Mr. Morgan's remarks Mr. Jackson obtained the floor, but yielded for an executive session, after which the Senate adjourned.

HOUSE.

In the House this afternoon the following bills were proposed and referred:

By Felton, of California, to terminate certain treaties with China and to prohibit Chinese immigration.

By Pulitzer, of New York, granting a pension of $5000 a year to the widow of the late Gen. Hancock.

By Henley, of California, to abrogate all treaties between the United States and China permitting Chinese immigration in any form and repealing all acts of Congress permitting such immigration, excepting diplomatic and consular officers.

By Mr. Hanback, of Kansas, a resolution calling for the appointment of a special committee, consisting of eleven members of the House, to make inquiry into any expenditures on the part of the government incurred relative to the rights of the Bell and Pan Electric Telephone Companies to priority of patents, said inquiry to include all organizations or companies that have sprung out of the Pan Electric Telephone Company, or for any other purpose, and also to make full inquiry into the issuance of stock known as Pan Electric Telephone stock, or any stock of any other company, companies or organizations springing out of the Pan Electric Telephone Company to any person or persons connected with either the legislative, judicial or executive departments of the Government of the United States to whom, where and in what amount and for what consideration in money or influence said stock was delivered, also as to what decisions, opinions and orders have been made by any officers connected with the government, and by whom, and all circumstances connected therewith and arising therefrom, and also what suit or suits, if any, have been brought in the name of the United States to test the validity of patents issued, or any other right in controversy between the Bell and Pan Electric Telephone Companies; what contracts have been made; what money paid or to be paid to any person or persons as assistant counsel to the Attorney General or Solicitor-General of the United States; the reason or authority for constituting the United States a party to said suit or suits. Referred to the Committee on Rules.

By Mr. Pulitzer, of New York, the following resolution:

Resolved, That the resolution creating a select committee submitted by Mr. Hanback, of Kansas, be so amended as to authorize said committee to inquire whether any of the telephone companies have in any way influenced or attempted to influence official action through newspapers acting from interested or improper motives, and also whether any corporations or their managers or representatives have contributed large sums of money for political campaign purposes upon the agreement that a certain person acceptable to them should be appointed Judge of one of the Courts of the United States which may have to decide litigation concerning telephone patents.

By Mr. Bland of Missouri for the free coinage of silver.

The House then went into Committee of the Whole, Mr. Springer of Illinois in the chair, on the Fitz John Porter bill, and Mr. Wolford of Kentucky resumed his speech in favor of the bill. Mr. Negley of Pennsylvania spoke against the bill, as did Mr. Fuller of Iowa. The committee then rose and the House adjourned.

CHINESE CHAT.

The Good Work Goes Merrily and Bravely On.

RED BLUFF, February 15.—A committee of eight, comprising members of the town Council and five leading citizens of the town, waited upon the representative Chinese here this afternoon and advised them that the best course they could pursue would be to have the Chinese move out quietly. Some of the Chinese said that many were too poor to pay fare and others that business would not allow them to leave at present. All who could would move, however. To-night a torchlight procession, 500 strong, headed by the Red Bluff brass band, marched through the streets.

AT SANTA ROSA.

SANTA ROSA, February 15.—The anti-Chinese movement is having a decided effect here. To-day over twelve Chinamen with their baggage left for San Francisco with the intention of sailing shortly for China. The Chinese laundries and stores are closing up and they are offering their goods and effects at half cost. More will leave in a few days.

AT SEATTLE.

SEATTLE, W. T., February 15.—Everything remains quiet here. The military are still in charge of the city, and the precautions taken are not in the least relaxed. The Court martial to-day tried private Carney, of Company G, Fourteenth Infantry, who broke into a Chinese house and attacked Chinamen on Friday evening. He was found guilty, but the sentence has not yet been made public. Numbers of suspicious persons are being compelled to leave the city daily. A case of rifles was found in a private house and seized by the authorities yesterday.

AT STOCKTON.

STOCKTON, February 15.—The Federated Trades Union has adopted resolutions calling on the proprietors of hotels, lodging houses, and restaurants to discharge their Chinese employes by March 1st under the penalty of a boycott. Also a resolution requesting all Chinese to leave Stockton on March 1st. A mass meeting will be held on Wednesday night." G. Gumpertz, manufacturer of overalls and men's underwear who hitherto employed Chinese in the manufacture has rescinded all contracts and this morning put on forty white girls and women in place of the Chinese.

AT SAN JOSE.

SAN JOSE, February 15.—T. S. Corwin, manager of the Lick Paper Mills near this city, to-day notified the Chinese employes that after Saturday white labor only will be used. The mill furnishes work to an average of sixty men, about one-third of whom have heretofore been Chinese.

AT WASHINGTON.

WASHINGTON, February 15.—The Chinese Minister called at the State Department to-day and laid before Secretary Bayard sundry long telegrams received by him from California to the effect that there is a concerted movement in progress to drive out the Chinese from all towns and cities of California except San Francisco, and that the Governor of the State and the Sheriffs of various counties have evinced no disposition to protect the Chinese in their rights. The telegrams also assert that the threatened action will not only be disastrous to the the Chinese laboring class but ruinous to Chinese merchants of San Francisco. It is understood that the representations by the Chinese Minister have a double purpose in view, first, to invoke the protection of the Federal government, and secondly to lay the foundation for a claim of money indemnity similar to claims that have been advanced by the United States in a large number of cases and paid by China as indemnity for injuries sustained by American citizens in that Empire.

London's Social Troubles.

LONDON, February 16.—There will be a hearing on Wednesday next before Justice Ingham, of Hyndman, Burns, Champion and Williams, who have been summoned to answer charges of inciting to riot, contempt of law, etc., during the disorders in London last week. Mr. Gladstone, Mr. Chamberlain and Mr. Henry Broadhurst have been subpœnaed by the Socialists, and the examination of these gentlemen will be watched by all parties with intense interest. The Social Democratic Federation has issued a manifesto convening a meeting Sunday to demand that the Government begin work on public improvements in order to give employment to workingmen now idle and that the wages paid be sufficient to insure healthy subsistence. The manifesto appeals to the workingmen to assist in maintaining order, and explains the object of the Federation.

The Queen has sent a donation of £500 to the Mansion House relief fund for the unemployed. The fund now amounts to £30,000.

The Home Rule Question.

DUBLIN, February 15.—The Corporation of Dublin to-day adopted resolutions demanding Home Rule for Ireland and expressing reliance on Mr. Gladstone's promises and ability to secure it. Mr. Michael Davitt supported the resolutions and said there were good grounds for the hope that Gladstone would settle the Home Rule question as he settled the church question in Ireland. Continuing Mr. Davitt stated that Mr. Parnell was right in trying to obtain Home Rule first although that he (Mr. Davitt) would prefer to see the Irish land question settled concurrently on the basis of the present valuation of its product. Mr. Davitt appealed to the protestants of Ireland to co-operate with the Parnellites.

Confirmed.

WASHINGTON, February 15.—The Senate in executive session on Thursday, the 10th inst., confirmed the nomination of James Bayard as Secretary of Arizona.

NEWS OF THE WORLD.

Manning Pays His Respects to the Senate.

HE OFFERS A LITTLE ADVICE.

Bland's Silver Bill Fails in Committee, but he will Present a Minority Report.

[Special to the Herald by the Associated Press.]

WASHINGTON, February 15.—The Secretary of the Treasury to-day sent Col. Morrison, Chairman of the Committee on Ways and Means, a communication in reply to a letter from that committee asking his opinion on the proposed joint resolution declaring the payment of the surplus in the Treasury in excess of $100,000,000 on the public debt. In his reply the Secretary quotes the language of the resolution which provides that when the over surplus or balance in the Treasury, including the amount held for the redemption of United States notes, shall exceed the sum of $100,000,000 it shall be the duty of the Secretary of the Treasury to apply such excess, in sums of not less than $10,000,000 per month during the existence of such surplus to the payment of the interest bearing indebtedness of the United States, payable at the option of the government and says: "The language of this resolution is such as includes in the surplus or balance in treasury the amount held for the redemption of the United States notes. This is in no sense a surplus but is set apart and appropriated as a minimum security and reserve for the redemption and payment of $346,681,016 of United States notes which have been issued, both of which are specifically promised in the act of March 18, 1869. (R. S. 3693.) This reserve, amounting to $100,000,000, should of course be held above all possibility of an encroachment like that which my distinguished predecessor, Mr. McCullough, in his last annual report (page 32) recommended. I deplore that the resolution now before me requires that there be at no time a surplus in the treasury available for the general needs of the government to exceed $100,000,000, and that when this sum is reached it should be immediately paid upon the public debt. After nearly twelve months experience in the conduct of the department and forecasting as well as I am able the future requirements of the treasury as now defined by the existing laws and as they may be affected by legislation yet to come, and considering the course of future reports which are liable to influence, from many causes, such as fluctuation of imports, prolonged depression of trade and marketing of more or less of our agricultural products abroad, I cannot now foresee the state of things which will make it prudent to limit the surplus in the treasury to a sum ranging from nothing to a maximum of $100,000,000. The legislation now before Congress relating to pensions will, if perfected, increase the demands upon the treasury to an amount which it is impossible to estimate, and a late decision of the Supreme Court subjects the government to the repayment of duties collected the aggregate of which is large, but altogether indefinite. These things are mentioned to remind the committee that neither the calls upon the Treasury nor the exact time that such demands must be met can be precisely foreseen. It would seem to follow as a business proposition that if the government is to maintain its credit in the sense of being prepared to meet all just demands which are impossible of ascertainment in advance there should be a reasonable sum laid by and kept on hand for that purpose. Respectfully yours,

DANIEL MANNING, Secretary.

THE SILVER QUESTION.

The Bland Bill Defeated in the Committee.

WASHINGTON, February 15.—The silver fight was renewed to-day in the House Committee on Coinage, Weights and Measures. A bill entitled "An Act to maintain the purity of silver and gold" was introduced as a substitute for all the other bills on the silver question. It provides that, as the faith of the United States is pledged to the restoration of silver on an equality with gold, that the President be authorized to make treaties with foreign powers to open their mints for the free coinage of silver, etc., and to appoint Commissioners to conduct negotiations. After a warm discussion the bill was defeated by a vote of nine to four. Those voting in the affirmative were Messrs. James, Hemphill, Rockwell and Scott. In the negative, Messrs. Bland, Lanham, Seymour, Norwood, McCreary, Bynum, Little, Felton and Fuller. Mr. Hemphill, to get the sense of the committee and at the same time disclaiming sympathy with the object of the bill, moved to report favorably Representative Regan's bill to provide for the free and unlimited coinage of silver. The motion was lost, yeas 4, nays 8. The votes in the affirmative were cast by Messrs. Lanham, McCreary, Bynum and Bland, and those in the negative by Seymour, Hemphill, Norwood, Scott, James, Rockwell, Little and Fuller. Representative Bynum then moved to report adversely Representative Waite's bill to suspend until further legislative action on so much of the act of February 28th, 1878, as provided for the coinage of standard silver dollars, Mr. Bynum's motion was tied, yeas 6, nays 6. Those voting in the affirmative were Messrs. Lanham, Norwood, McCreary, Bynum, Fuller and Bland. Those voting in the negative were Messrs. Seymour, Hemphill, Scott, James, Rockwell and Little. Representative Felton, of California, was not present. Representative James then moved to report adversely the bill introduced by Representative Bland this morning entitled, "A bill for the free coinage of silver and other purposes." It provides that holders of silver bullion shall be entitled to have it coined upon like terms with gold, and that silver dollars so coined shall be a legal tender, etc. It also provides for the repeal of the act authorizing the purchase of silver bullion to be coined monthly into standard silver dollars. Mr. James' motion to report the bill adversely was carried—yeas 7, nays 5. The detailed vote was as follows: Yeas—Seymour, Hemphill, Norwood, Scott, James, Boutwell and Little. Nays—Lanham, McCreary, Bynnum, Fuller and Bland. Representative James will make a majority report and Representative Bland will make a minority report recommending the passage of the bill.

Mitchell's Chinese Bill.

WASHINGTON February 15.—In the Senate to-day Mr. Mitchell, of Oregon, gave notice that on Tuesday, February 23rd, he would call up his bill providing for the abrogation of the treaty permitting the immigration of Chinese. He would be able to show, he said, that not only was it within the power of the United States to abrogate the treaty but that the doctrine has been recognized by all acts of Congress, commencing over eighty years ago with the abrogation of the treaty with France. He held it to be the duty of Congress to provide for the abrogation of the Chinese immigration treaty.

Released.

CINCINNATI, February 16.—J. B Mannix, the late assignee of Archbishop Purcell, who was arrested last week for embezzlement and perjury and committed to jail in default of $110,000 bail, was to-day released by Judge Johnson of the Common Pleas Court on a writ of habeas corpus, bail being reduced to $30,000 and bondsmen obtained.

France Asserts Herself.

PARIS, February 15.—Prime Minister De Freycinet has made a radical change in the Government's policy respecting Egypt. He has instructed M. Sauray, the new French Minister to Cairo, to support the demand of the Porte for the formation of a Turco-Egyptian army to replace the British troops in Egypt, and the evacuation of that country by the English at the earliest possible date. If England opposes the demands of the Porte De Freycinet will seek to induce the Powers to take combined action for the purpose of vindicating the Sultan's sovereign rights in Egypt. General Billot has been appointed French ambassador to St. Petersburg in place of General Appert.

Killed by Bandits.

EL PASO, Tex., February 15.—J. T. Preston and Captain H. Howser, while en route from Sinaloa, Mexico, to this city, were attacked by two Mexican bandits near Parral, Mexico. Howser was killed and Preston was wounded in the arm. Both men were from Council Bluffs, Iowa, and were heavily interested in mines in Mexico. The defense made by Preston caused the bandits to flee.

One of Crook's scouts is here and says Geronimo has asked until the 21st inst. to meet Crook.

A Suicide.

SAN FRANCISCO, February 15.—Louis A. Son, aged 21, after returning home last night from a ball, took sick and medical aid was called in. It was ascertained that he had taken a dose of arsenic with suicidal intent. He died this afternoon. No cause for the act is known.

That Through Orange Train.

The first through orange train from Southern California, via the Southern Pacific, Central and Union Pacific and the Chicago and Rock Island route left this city at 12:15 P. M. Sunday, just thirty-five minutes ahead of the passenger train on that route. The train consisted of eighteen cars loaded with oranges from Riverside, San Gabriel and Santa Ana, and were shipped under the auspices of the Orange Growers' Union of Southern California. The train was drawn by two of the ninety-ton pushers on the S. P. R. R. As the train moved out of this city it was dispatched by Assistant Superintendent Polk, with instructions to make passenger time over his division, and not let the passenger train overtake it on the way. The cars carried banners representing Riverside, San Gabriel and Santa Ana, which were ingeniously displayed on the right hand side of the car, so as to be conspicuous to the casual observer on Front street, Sacramento as this fragrant load passed through the "Northern Citrus Belt"? The orange growers at Fresno, Stockton, Sacramento, Colfax and Truckee can witness, for the first time in their experience in citrus culture a full train load of citrus fruits from the Southern citrus belt on its way to the frozen lakes of the north, with a thousand carloads to "follow fast and follow faster." As this monster train pulled out by the passenger depot the fragrance of the cargo filled the air with perfume, as it will the entire distance from this city to Chicago. The immense crowd of spectators congregated at the depot in waiting for the southern overland passenger train raised their hats and cheered the first overland citrus train by the central overland route through the "northern citrus belt." In addition to this train of eighteen carloads of oranges, lemons and limes for the East by the Central Pacific route, there were eight carloads shipped to San Francisco and Sacramento yesterday to supply the trade from that section.

To the Public.

I wonder if that would-be blackmailer, base perjurer, not "common" but gigantic gas-bag and liar, thinks the public would believe anything he would say about anybody. The public knows him. He is on record as stated above. Let the public judge us both by our past and future conduct. My place of business is at No. 1 First street, where I am at his service or anyone else of his ilk. My name is C. D. Platt, am all wool and a yard wide, and have a memorandum from which I can cite facts for a year.

CONSUMPTION

And all the various diseases of the HEAD, THROAT AND HEART, —INCLUDING THE— EYE, EAR AND HEART

Successfully treated by
M. Hilton Williams, M. D.,
M. C. P. S. O.,
275 North MAIN Street, Los Angeles, Cal., (Next Diamond House.)

All diseases of the respiratory organs treated by the most improved medicated inhalations, thus bringing the remedies into direct contact with the diseased part. These are in all cases combined with proper constitutional remedies for the liver, stomach, nervous system and blood, etc. The efficacy of this system of practice is attested by the fact that out of 5,500 persons treated in Los Angeles during the past two years only twelve have died, and those had treatment only with a view of prolonging life.

CHRONIC BRONCHITIS.

Bronchitis is an inflammation of the mucus membrane of the bronchial tubes, and is one of the most common of the pulmonary affections. Chronic brochitis more often appears later in life. When a cold settles on the lungs the disease either ends in bronchitis or pneumonia. If it ends in bronchitis it usually passes off as a cold on the chest, and still the patient does not feel entirely well. He feels tired and languid, and is incapable of taking his usual amount of exercise and experiences a shortness of breath, with more or less warmth in the palms of his hands. Soon after this a cough appears, accompanied by an expectoration of thick mucus, followed by a hectic flush, loss of flesh and strength and night sweats continue, when the patient assumes all the appearances of having a genuine case of consumption. But this is simply catarrh of the lungs or chronic bronchitis.

In the later stage of the disease the mucus membrane of the larger bronchial tube softens, while in the smaller tubes and air cells of the lungs the mucus membrane becomes congested and inflamed. There are no cavities nor tubercles in the lungs, but merely a wasting away of the larger bronchial tubes and death takes place from obstruction of the bronchial tubes and air cells of the lungs. The patient dies from exhaustion and suffocation, being unable to expectorate the mucus which accumulates in the passage leading to the lungs, which in some cases is sticky and small in quantity, but more commonly copious, of a light straw or yellowish green. Oftentimes streaks of blood make their appearance in the mucus, and at times there is a disagreeable smell. Persons thus afflicted are liable to take a cold, at which times the mucus becomes clear and frothy, and it is not uncommonly the case that the patient dies in one of these attacks.

Humid bronchitis (from humor, to be moist,) is so called from the profuse quantity of watery secretions which comes from the air passages of the lungs. At times it becomes quite ropy, like the white of an egg. This form of disease usually attacks old people.

Dry Bronchitis.—This disease, the very opposite of the above, is a very common affection. Very many people who regard themselves quite healthy are to-day under its influence, and are slowly but surely becoming the victims of this treacherous complaint. This is the most insidious of all pulmonary diseases. There may at first be a slight, hacking cough, and an expectoration of a bluish-white mucus. And herein lies the danger. This mucus, inhabiting the air cells of the lungs, being difficult to raise, after a time becomes solidified, permanently obstructing portions of the lungs, causing shortness of breath and a feeling of oppression on the chest, particularly after meals or on slight exertion. After a time the cough becomes more severe and comes on in paroxysms, and as the shortness of breath increases, it almost assumes the character of asthma. The mucus membrane also becomes more and more thickened, which arises from the frequent fresh colds, and the patient at last becomes fully aware of the terrible changes that have taken place, and the inevitable results that are to follow.

Inhalation is the only system which will cure these diseases, and yet the treatment of the two are entirely different. In the one we must allay the irritation, while in the other we must stimulate a healthy action.

This will convince us of the necessity of fully understanding the systems of Medicated Inhalations in the treatment of the various diseases of the pulmonary organs, for when properly applied there is no system of medicine to be compared with it.

Those who desire to consult with me in regard to their cases had better call personally for an examination, but if impossible to do so, may write for a list of Questions and Medical Treatise.

Boycotting the Chinese.

At last Los Angeles has moved in regard to the exclusion of the Chinese incubi from our city. The Trades Council of Los Angeles, at its meeting on Sunday last, adopted the following resolution by an unanimous vote:

WHEREAS, The evil effects of coolie competition with white labor have been so frequently presented, and are besides so manifest to all who are willing to see, that any further argument of the subject would be unnecessary. The time for decided and effective action has come. Therefore, resolved:

First—That we hereby appeal to the Knights of Labor, to the members of Labor Unions, of whatever kind, to all laboring people, and to the friends of civilization as well, to withdraw their patronage from restaurants, hotels, laundries and manufacturing or business houses of whatever kind where Chinamen are employed as domestics or about their houses, or as laborers in any capacity.

Second—We recommend that all labor organizations of the city, after the first of May next, keep conspicuously posted at their several places of meeting the names of all persons, companies or firms employing Chinese, or patronizing establishments where Chinese are employed.

Third—That this Council appoint a committee, consisting of one representative from each of the labor organizations composing this Council, to co-operate with a like committee to be appointed by other labor organizations of Los Angeles to carry into effect the above resolutions.

Fourth—That we recommend the holding of a public meeting at the very earliest day practicable for the purpose of considering the best means for the peaceful riddance of our city of the Chinese, and that a committee of three be appointed to make the necessary preparations and arrangements.

Now is emphatically the time to act. Heretofore it would have been well-nigh useless for Los Angeles to have undertaken to boycott the Chinese, unaided as it was, so far as any general result of driving the Chinese from the Coast was concerned. If we had forced them from here by non-employment, they would simply have gone to other places in California, the benefit would have been merely local; and that only during the active continuance of the exclusive process. They would have returned, as before, the moment they could obtain a new footing.

But now we have a cheering opportunity, and we are glad that it is to be taken advantage of. For the first time in thirty years, the whole Coast, from Seattle to San Diego, is ablaze with the anti-Mongolian sentiment. The whole people have arisen as one man, and with one mighty voice say to the Chinese, "Your days are numbered—you must leave!" There is no doubt that this last supreme effort will be entirely successful. There never was any question as to the ability of the people of the Pacific Coast to rid themselves of the Chinese curse, if they only acted in concert. Simple as the Chinaman's fare is, he must be employed, to live. The "boycott" will drive him out as surely as it did the Captain in Ireland who gave it name. And it is being used with wonderful and inexorable success all over the Pacific States and Territories. Los Angeles is the last to fall into line. The northern portion is already well-nigh freed from the Chinese. They have been forced into San Francisco by thousands, from whence they are only too glad to depart for the flowery kingdom at the first possible chance. If the effort is only maintained, it is but a question of time when the last "John" will have left us forever.

The policy of non-employment should be religiously observed here when inaugurated. If not, it will not fully secure the desired end; and besides, the Chinese from all other portions would soon learn of any relaxation on our part, and would flock here in swarms. We want nothing of the latter kind. Let no one employ Chinese, and they will leave here, as they have been forced from the north. There will no doubt be some inconvenience among our people in the matter of obtaining vegetables, having washing done, hiring domestic help, etc.; but all should be ready to make some sacrifices, and mutually assist each other in the good work. There should be no attempt on the part of any to speculate on the temporary inconveniences that may arise. All should bear their part and do all that may be requisite, at reasonable rates, and in a manner that will show devotion to the general good. In this way we will soon not only have gotten rid of the Chinaman, but will have taught ourselves the useful and necessary lesson that we can live without their assistance as people are able to do in other parts of the Union.

As showing the tendency of the great farms to increase in number, proportionately, in this country, and of the small ones to decrease, Mr. Desmond, in his article heretofore referred to in these columns, makes the following comparison of statistics gathered in 1870 and 1880:

	1870.	1880.	Increase, per cent.
Farms under 100 acres.	2,075,338	2,208,374	10
Farms 100 acres or over and under 500 acres	565,054	1,695,983	200
Farms 500 acres or over and under 1000 acres	15,000	75,000	500
Farms over 1000 acres	3,400	28,600	800

This is a remarkable exhibit, and shows conclusively that a system of landlordism is growing up in America that possesses the most objectionable features, for as large farms grow up, tenants and farm laborers, instead of farm owners, invariably increase. The independent farm owners have always been the pride of our country; and it will be an evil day, indeed, when the landlord systems of Ireland and England shall supersede them. After the passage of the Sicinian laws in ancient Rome the farm owners of that country constituted its greatest strength and proudest boast. When the farmers of the Roman republic girded on their swords, the world trembled. But no nation can ever achieve its full destiny, or merit, or receive the respect it should, whose farmers have become mere tenants and vassals of another. Especially is this true of absent, alien landlordism, which deserves all the reprobation it is receiving by the public press and patriotic men of all parties.

It is apparent that Gladstone's government must be a failure. An attempted compromise between two extremes, it will please nobody and accomplish nothing. It will signally fail in the treatment of the Irish question, while at home it is beset by unexpected and dire difficulties. It had no sooner become warm in its seat of power than the London riots paralyzed it. It will have more than it can attend to at home to satisfy and dissipate the alarming discontent abroad throughout England. In fact, it can never dissipate that discontent by any of the means proposed. The apple of discord is multiplying itself in England in a manner heretofore unknown. There is no likelihood that the war of classes in that country—for it amounts to a veritable war of classes—will cease. All the signs of the times indicate that it will continue to grow and assume still more startling proportions. In the metaphorical vernacular of the day, "there is music in the air" in "old England." The next few months may be expected to develop great occurrences there.

In addition to the admirable service which the Southern Pacific Railway Company is rendering our orchardists in disposing of their orange crop, the California Southern and Atlantic & Pacific Railways are doing yeoman's work in the same line. Every day they are taking out a "double-headed" train — which expression means a train drawn by two locomotives—to the East, and their service is most excellent, embracing the celebrated Tiffany Double L. L. Lackawanna Refrigerator Fruit Car. They are of great heighth, are provided with all the latest conveniences, and an admirable and safe means for reaching the Eastern market with citrus fruits over a short route.

A Wise Reform.

The habit of administering quinine in powerful doses as an antidote to malarial maladies, was once dangerously common. Happily this practice has undergone a wide reform. Not only the public, but professional men have adopted, not wholly, of course, but largely, Hostetter's Stomach Bitters as a safe botanic substitute for the pernicious alkaloid. The consequences of this change are most important. Now fever and ague sufferers are cured—formerly their complaints were only for the time relieved or half cured—the remedy eventually failing to produce any appreciable effect, except the doses were increased. A course of the Bitters, persistently followed, breaks up the worst attacks and prevents their return. The evidence in favor of this sterling specific and household medicine is of no ambiguous character, but positive and satisfactory, and the sources whence it proceeds are very numerous.

TELEGRAPHIC.

Flagstaff, Arizona, Destroyed by Fire.

THE CITIZENS DESTITUTE.

Gen. Crook's Method of Dealing With the Murderous Apaches Severely Criticised.

Special to the Herald by Associated Press.

THE NEEDLES, February 15.—Yesterday morning about eighteen buildings, composing the entire business portion of the town of Flagstaff, Arizona, were destroyed by fire. Loss, $100,000; insurance, $15,000. It is supposed the fire originated in a Chinese house in the vicinity of the postoffice.

DENVER SENDS RELIEF.

DENVER, Cal., February 13.—While the Board of Trade was in session this afternoon the following telegram was received by them:

"Citizens of Flagstaff appeal to you for aid as they are made destitute by a ravaging fire, destroying all of the business portion of the town, leaving the people without food clothing, bedding or shelter. If there are any contributions send same to us at once."

[Signed] A. C. AYER,
Treasurer Relief Committee.

Inside of half an hour the members of the Board donated provisions and clothing sufficient to fill a car, which will be forwarded to them by the express train to-night.

Strictures on Crook.

NEW YORK, February 15.—The *Commercial-Advertiser* in an editorial says: "There is a universal desire on the part of citizens away from the scene of Geronimo's slaughter to know what—to use a technicality of New York politics—the "pull" of this savage chieftian is. He has been captured twice before after a series of cold-blooded murders and each time returned to his reservation unpunished. Now that the tribe is worn out by hunger and exposure and their chief is a captive, they are willing to promise, as on other occasions, to behave themselves if they are again returned to their reservation and supplied with food and shelter. Of course no one pretends to believe they are serious in these promises, and yet General Crook has evidently determined to give the savage cutthroats another chance for carnage. When the next raid of Geronimo and his band is reported with all the usual details of murder, rapine and torture, there will be innocent blood upon the head of whoever is now responsible for setting them free."

The Prewett Trial.

HOLLISTER, Cal., February 15.—The court-room this morning was densely packed at the opening of the trial of John T. Prewett, charged with the murder of Dr. Powers. Many were unable to gain an entrance. The town is crowded with witnesses, interested parties and spectators. Fourteen dilatory jurymen were fined $50 each for not answering. Phillip Backus and Wm. Dampman were accepted as jurors from the first twelve called. It will probably take all week to secure a jury. On motion of the prosecution the Court ordered that the jurors accepted be placed in the custody of the Sheriff until the close of the trial.

The Tax Cases.

SAN FRANCISCO, February 15.—In the tax case of the county of San Francisco vs. the Southern Pacific Railroad Company, a stipulation between Creed Haymond, as attorney for the defendant, and Attorney General Marshall was filed in the Supreme Court to-day by W. W. Foote to the effect that the railroad tax cases shall abide by and be governed by the final determination of the Supreme Court of the United States in the San Bernardino county case.

Assumed the Duties of Office.

SAN FRANCISCO, February 15.—Two prominent federal officials assumed the duties of their respective offices in this city to-day. Wiley J. Tinnin took the office of Surveyor of the Port, which was vacated by John M. Morton last Saturday, and Theodore M. West assumed the duties of Special Agent of the Treasury Department, vice Evans.

Charged With Murder.

SAN FRANCISCO, February 15.—At the inquest held this morning in the case of John Peterson, night clerk of the Richmond House, who was shot and killed by Ignatius Pierce last Friday, the jury returned a verdict charging Pierce with murder.

DAY DISPATCHES.

LONDON, February 15.—A dispatch from Yarmouth says the unemployed workingmen of that city are making riotous demonstrations.

At Birmingham a meeting of unemployed workmen was held to-day, and was attended by eight thousand persons. The addresses delivered were of a most inflammatory nature, and the assemblage degenerated into a mob which attempted to run riot in the streets and pillage shops. The police were prepared, and succeeded in suppressing rioting, and preventing any acts of pillage.

Is it the Wickersham Murderer?

FRESNO, February 15.—A Chinaman, supposed to be Ang Tai Duck, the murderer of the Wickershams, near Cloverdale, about a month ago, was arrested at Maden and brought here and jailed yesterday to await identification by S P. Weston of Petaluma. He had a ticket for Hong Kong and several hundred dollars on his person. He answers to the description of the murderer. The police authorities of San Francisco declare they do not believe the Wickersham murderer has been arrested, as they have indisputable proof of Duck having sailed on the Rio de Janeiro on January 20th for China.

NOT THE MAN.

FRESNO, Cal., Fubruary 15.—S. P. Weston, of Petaluma, arrived this morning to identify the supposed Chinese murderer of Jesse C. Wickersham and wife. He stated that the prisoner, though very much resembling the murderer, is not Tai Duck.

A Lately Pardoned Convict Kills His Father.

SAN FRANCISCO, February 15.—Last night John Whalen, an aged plasterer of this city, was killed by his son, Timothy Whalen. The murder was committed in the basement of the murdered man's house. Young Whalen says he and his father have not been on speaking terms for some months, and when he went to the cellar to cut kindling wood his father followed and while he was stooping over struck him on the back of the head. He immediately returned the blow, striking his father several times with the axe. After committing the deed young Whalen attempted suicide by stabbing himself several times in the breast. The wounds are dangerous, but not necessarily fatal. He has served two terms in prison—one in Oregon for attempting to murder a woman, and one in San Quentin for burglary in Los Angeles. He was pardoned by Governor Stoneman September 18, 1885.

The Chinese Boycotted at Placerville.

PLACERVILLE, Cal., February 15.—The Anti-Chinese Association held a meeting last night, and boycotting was agreed upon, to begin the first day of March. A written agreement will be presented to the people of the township for signatures, whereby the signers promise to discharge the Chinamen in their employ by the first of March, and withdraw patronage from all persons employing them after that date. All persons refusing to sign are listed on a blackboard for the purpose of boycotting. A committee of twenty was appointed to visit Chinatown on the first of March and request the Chinese to leave by the first of April. William R. Selkirk was appointed delegate to the State Convention to be held at Sacramento.

Bismarck Liable to Yield to the Pope.

BERLIN, February 15.—There is great excitement in Berlin over apparently well authenticated reports that Bismarck is preparing to yield to the Vatican in the religious dispute which has been waged by Prussia against Papacy for the past fifteen years. A bill has been deposited by the Government with the Upper House of the Landtag revoking, with a few trivial exceptions, all the features of the laws which have been so odious to the Catholics of Germany.

Henry Watterson Better.

LOUISVILLE, February 15.—Henry Watterson, editor of the *Courier-Journal*, is resting easy this morning and the physicians are more hopeful. At a consultation at 11 o'clock to-day they decided that his symptoms are more favorable. The treatment is for acute meningetis.

Wreck of the Douglass.

LONDON, February 15.—The British steamer Douglass, trading locally in the China Seas, has been wrecked at Swatow. One European and seventeen Chinese were drowned.

FINANCE AND TRADE.

The New York Stock Market.

NEW YORK, February 15.—Government bonds dull and steady.

There was little interest in stocks. Prices opened with only a moderate change. The majority of the list was a shade higher. During the first hour the market was irregular and somewhat feverish. This was followed by a small decline, and after midday by a rally, during which early losses were recovered. Changes with few exceptions were within a range of one per cent, and closing quotations show a loss in a majority of cases of only small fractions. Pacific Mail, however, was strong all day, closing with a gain of ⅞ per cent.

The English Grain Trade.

LONDON, February 15.—The *Mark Lane Express* in its review of the British grain trade for the past week says: It is too early to make a forecast of the crops. In the meantime English wheats can be supplied. Sales of English wheat during the past week were 69,972 quarters at 29s 6d, against 58,814 quarters at 32s 10d during the same week last year. Flour is freely supplied, aed under bids foreign wheats are more inactive, but the market is firm. The American option is the curse of the world, and paralyzes business in London and Liverpool. The trade in cargoes has been very restricted. There were two arrivals and one sale; two cargoes were withdrawn and two remain, both American. At to-day's market there was only a retail inquiry for wheat. Corn and barley were 3d dearer. Beans and peas were 6d dearer.

What Parents Fear.

Many persons, especially parents, object to many quack nostrums as likely to engender or encourage a love for strong drink. They are right. Better to die of disease than drunkenness. The use of Parker's Tonic dees not involve this danger. It not only builds up the system, curing all ailments of the stomach, liver and kidneys, but it stimulates without intoxicating and absolutely cures the appetite for liquor.

Graduate of Chicago Homœopathic College, Chicago, and College of Physicians and Surgeons of Ontario, Toronto, Canada.

DIPLOMAS HANG IN OFFICE.

CATARRH

Treated upon a new princippl, founded upon the fact now generally acknowledged by the most scientific men, that the disease is caused by the presence of living parasites in the tissues. The parasites can be demonstrated by aid of the microscope and will present the appearance given below:

Imagine millions of these tiny, tickling bugs in the nose, and attached to all the mucus membranes of the head, throat lungs, and in some cases the eyes, and the eustachian tubes leading to the middle ear, and you will readily understand the irritation they can produce.

Our treatment, which destroys these parasites, will arrest the worst cases of nasal catarrh and pharyngitis in from a few days to a few weeks. Bronchitis is nothing more than catarrh of the air tubes leading to the lungs. This disease is frequently mistaken for consumption, of which the symptoms are very similar. The large majority of cases can be cured by aid of our new inhalation treatment.

CONSUMPTION.

The symptoms of this disease are gradual and constant increasing emaciation, pale or sallow skin, great debility, frequent flushes of the face, alternating with paleness, without any particular cause or upon the slightest emotion, increased susceptibility to colds. Expectoration yellow, perhaps offensive and streaked with blood. Dry, hacking cough from tickling in the throat, shortness of breath, especially upon going up stairs, chilly sensations, and a pink-red line on the lower gums.

More or less pain and soreness are noticeable about the chest.

Later we have night sweats, diarrhœa, and swelling of the feet.

If you have part of these symptoms do not think it is merely a cold that will soon pass off, but take treatment before the disease is firmly seated, and you can be cured.

In the later stages life can be prolonged, and comfort given to the patient, by aid of our inhalations, which ease the coughing, facilitate expectoration, and promote healthy and refreshing sleep.

Constitutional remedies hasten the cure by building up the system generally, purifying the blood, etc.

The treatment can be used at home without detention from business.

BLOOD DISEASES.

Blood diseases are numerous; they may take the form of scrofula, may cause ulcers, abscesses, different skin diseases or merely pimples upon the face. Sometimes enlarged glands, having the appearance of tumors, are noticed in various portions of the body, especially in the neck and groins. We will guarantee a cure in every case, whether recent, of one, or forty years standing. No mercury is used. Tendency to cancer, as well as cancer in the earlier stages, is entirely eradicated from the system by our blood remedies.

LADIES.

Diseases peculiar to ladies treated with care and discretion. Our teatment is new and pleasant as well as successful in nearly every case.

LADIES' DAYS, Wednesdays and Saturdays.

Certain hours will be granted to individual cases so patients will not be obliged to wait.

GENTLEMEN.

Evenings will be devoted to the treatment of the ailments of men. Have you a lame back, Aching of the bones of the legs, Vertigo, Weakness of Memory, Languor, if so, come and see us and we promise you a sure cure.

The following testimonials will show the rapidity with which we can cure diseases of our specialty. Hundreds of these can be seen at office:

This is to certify that I am a regularly qualified physician, but not practicing, and have always believed catarrh of chronic nasal variety to be an incurable affliction, but hearing of Dr. W. N. Davis' "New Treatment," and his success, I applied to him for medicine and determined to try it in the case of one of my friends, and did so with the most satisfactory results, as improvement was immediate, and one prescription effected a cure. The case was of years' standing and of a very severe type. I can recommend Dr. Davis to those similarly affected. S. HALEY, M. D.
Los Angeles, Aug. 1st, 1885.

January 2d, 1886, Doctor Haley testifies that the case he treated five months ago is still a cure. Doctor Haley is now practicing law at 45½ N. Spring street.

This is to certify that I was troubled for six years with what seemed to be an incurable disease that had resisted the abilities of some of the best physicians of San Bernardino, Los Angeles and San Francisco. I then determined to try Homœopathy and consulted Dr. W. N. Davis, 45½ N. Spring street, Los Angeles, and within two months I was entirely cured. S. S. BALL.
Anaheim, California.

DR. W. N. DAVIS: I have been troubled with catarrh of the dry variety for about five years, since three years before I came to California, and in one month I feel that I have been entirely cured by your remedies. PETER NIES.
Los Angeles, July 4, 1885. P. O. Box 825.

LOS ANGELES, Sept. 14, 1885.
DR. W. N. DAVIS: DEAR SIR—I beg to acknowledge the benefit I have received from your Homœopathic remedies, which I consider almost miraculous.

I was troubled for three years with a complication of diseases which had baffled the skill of ten Allopathic physicians. Some said that I had "Bright's disease," others "spinal disease," and others "heart disease." I was troubled with pains all over my body, was confined to the house and was almost paralyzed. Now, after treating with you for little more than a month, I am free from pain, and can walk half a mile without difficulty. I go to church and sit through service with no inconvenience, which I could not do before.

I am still improving in strength and think in a few weeks more I will be a well woman.

Thanking you for what you have done for me, I am yours truly,
MRS MARY LOUTHAN,
422 South Los Angeles street.

October 20th, 1885, Mrs. Louthan testifies that she is entirely cured.

This is to certify that I have been troubled for four years with Bronchitis, and in six weeks I have been almost entirely cured by Dr. W. N. Davis. and have had no suffocative attacks since I commenced treatment. I can recommend Dr. Davis to any who are troubled with the lungs or throat.
MRS. M. S. STEVENS,
Ninth street, near Pearl.
Los Angeles, Jan. 27th, 1886.

This is to certify that I have employed Dr. Davis with very satisfactory results, and would recommend him as a physician to any of my lady friends.
MRS. M. J. BUHLER,
Washington street, near Rosedale Cemetery.
Los Angeles, Feb. 2d, 1886.

DR. DAVIS: If it were not for you I am satisfied that I would now be dead with lung disease, which had troubled me for two years, as at the time I commenced treatment last summer I was so low that I could not continue my trip East after starting, and was obliged to return from Mojave. I wish to testify that I was entirely cured in three months, and found your charges very reasonable.

22 Bernard street.

Attorney-General Marshall's Reply to Hon. T. E. Jones;

OFFICE OF THE ATTORNEY-GENERAL OF THE STATE OF CALIFORNIA, SAN FRANCISCO, March 18, 1883.

HON. T. E. JONES—My Dear Sir: I have just received your letter of 15th. Dr. MacLennan has wonderful power He was of great and very singular service to me. I would certainly try him if I were in your place. He has worked some wonderful cures within my knowledge.
Respectfully, F. C. MARSHALL.

Charles Crocker, the railroad millionaire, cured of Rheumatism in three treatments.

Professor D. Gonzales was given up his physicians to die of Sapped Vitality and Paralysis; was carried perfectly helpless to Dr. MacLennan and cured; now says: "In less than one month I was enabled to resume my occupation as professor of music and violinist at the Tivoli Opera House, and ever since (for over three years) have continued in good health, without the slightest return of my weakness or disease."

Dr. C. E. Davis, St. Helena, Cal., cured of Nervous Prostration, says: "After four days' treatment I was entirely relieved. I have now a good appetite and feel well."

Miss Emma Jones, San Leandro, Cal., for six years a crippled invalid, unable to stand or walk, given up by over a dozen doctors, took two weeks' treatment of Dr. MacLennan and recovered.

The Safest, Most Reliable and One of the Oldest Family Medicines in the Market.

Thousands of families are constantly using it in different parts of the Union. Recommended by physicians as the most convenient and surest remedy for CROUP. Keep on hand for emergencies. The attacks of Croup come on so suddenly and unexpectedly, generally in the middle of the night, when medical aid cannot so readily be obtained, that a POSITIVE REMEDY FOR CROUPY COUGH—one that is speedy in its action, pleasant to the taste, and always ready for use—becomes a great desideratum. All these conditions are fulfilled by B. & S. Homeopathic Cough and Croup Syrup.

This preparation has been in use for over twenty five years, and thousands of valuable lives have been saved. As a remedy for **Coughs, Catarrh on the Chest, Bronchitis and Pneumonia** it is without a peer, for children as well as adults. In Asthma, especially Humid Asthma, it greatly aids in cutting short the paroxysms and preventing their return.

B. & S. Homeopathic Cough and Croup Syrup does away with the necessity of resorting to all sorts of soothing syrups, which annually destroy as many little lives as this preparation saves. It assists nature in curing or relieving all diseases of the respiratory organs, whether acute or chronic.

PILES! PILES! PILES!

A SURE CURE FOUND AT LAST! NO ONE NEED SUFFER.

A sure cure for Blind, Bleeding, Itching and Ulcerated Piles has been discovered by Dr. Williams (an Indian Remedy), called Dr. Williams's Indian Pile Ointment. A single box has cured the worst chronic case of 25 or 30 years' standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotions, instruments and electuaries do more harm than good. Williams's Indian Pile Ointment absorbs the tumors, allays the intense itching, (particularly at night after getting warm in bed), acts as a poultice, gives instant relief, and is prepared only for Piles, itching of the private parts; and for nothing else.

Read what the Hon. J. M. Coffinberry of Cleveland says about Dr. William's Indian Ointment: "I have used scores of Pile Cures, and it affords me pleasure to say that I have never found anything which gave such immediate and permanent relief as Dr. Williams's Indian Ointment." MRS. TANEY

MISS PERKINS' CASE.

Like a Wounded Snake Drags

ITS SLOW LENGTH ALONG.

The Rebuttal Testimony Nearly all in—Sur-rebuttal To-day Closes.

The great Baldwin case was resumed yesterday at 10 A. M. and

MR. W. G. HUGHES

Was put on by the plaintiff; know Jno. Blackburn, Constable at San Bernardino; know 3d street and Moss' store there. About three months ago in that store with Blackburn, I did not say I was in bad circumstances, but that I expected to be a witness in the Baldwin case and if I did I would be in easy circumstances. Do not remember any such conversation with Blackburn. In cross-examination witness said: I do not remember ever having such conversation. I was not in particularly low circumstances. Am a poor man. Mr. Sweeney was then put on again to finish the cross-examination left on Saturday. In answer to Colonel Wells he said. I know Dodson of El Monte. I saw him here Saturday. Did not have any conversation with him. As I came in Saturday to go on the stand some one said. "Stand up Budd, you have plenty of friends." I do not know who said it. I was here in 1879. I was in Arizona about six months in 1880. I left here on August 6th. I do not remember where I was all the time in 1883. I was in Los Angeles county and Ventura county but do not remember just in what point. In 1884 was here part of the time. I was doing nothing. Part of the time I was in Ventura county. There I worked part of the time. Some of the time worked for Mr. Cawelti. I have been around town here. Col. Wells asked if he had been around gambling saloons. Objection—sustained. I could not tell you how often I have been around gambling saloons. The first time I discussed being a witness was when I met Mr. Williams. The first I heard was one day Mr. Cawelti called a man aside and said: "We can make a big thing out of this by going down and swearing Budd Sweeney told us this story." I do not remember the time. I heard it from Bruce Methvin. I told it to a young man named McCord. Mr. Williams came to me Monday, the 8th of February and told me to come down. He is Judge of the Superior Court in Ventura. He said he wanted me to come down; that Mr. Cawelti was going to swear against me. I have known him a long time. I do not think he is a good man. He swore to a lie. Hanging is too good for that man. As to other matters he has been wild some of the time. I do not know as to his reputation there. He manages to get along. I always respected him until now. Since being here I board at Brown's; I lodge in the McDonald block. The Perkinses are at the same place. I have been with them a day and a half since I came down. I am paying my own expenses. Mr. Williams told me I would get my expenses; if I did not get it elsewhere he would pay me himself; got $2.50 from Emil Harris since I came here; Mr. Barron gave me $5. Mr. Williams here acknowledged giving this money to Barron to give to Sweeney. Mr. White said he would admit that they expected to pay him proper fees, etc. Witness said: "I expect to look to Mr. Williams of Ventura for my expenses."

J. F. Blackburn of San Bernardino was put on the stand. He said: "I am a Constable at San Bernardino; I know W. G. Hughes, Third street, and Moss' store there. I had a conversation with Hughes at that place three or four months ago; Mr. Hughes said: "I am a little hard pressed, but if I could be a witness in the Baldwin case I would be in easy circumstances."

CROSS-EXAMINATION.

Known Hughes fifteen or twenty years; just on speaking terms with him; do not know whether he is a man of integrity or not; do not know what his reputation is; am not intimate with him; I thought it was strange he should talk so to me; I was talking about my troubles and he talked about his; I know it is unusual for men to speak so of their affairs; do not remember how the conversation commenced; he got into money matters; do not know how; I did think it strange, so much so that I remember it; told this first to Judge Knox, two or three days ago. I was reading the testimony in the papers, and saw what Hughes said, and told the Judge and asked him to keep still so I would not get here, but Knox told it; I do not take a hand at the games; do not play faro; know Mr. Martin, but am not intimate with him; have talked more to him to-day than ever before in my life; do not know him better than I do Hughes.

MR. W. F. THOMAS

Was called, and said; I reside in San Bernardino for twenty-five years; I am City Marshal; I know R. B. Meeks; have known him twelve years; saw him in San Bernardino last Thursday, after he came back from being a witness here; Meeks stated in my presence, and before two or three others, that he had not come down here for nothing and slapping his pockets at the same time.

The defense did not care to cross-examine this witness at all.

Dr. J. Elliott Clarke was the next witness. He said: I reside in 405 Sixth street, this city; used to live in El Monte; being there in 1882 to 1885; know Dodson's hotel; my shop was eight feet from the hotel; have been at balls at Dodson's hotel in 1882 and 1883; I attended all the public gatherings in that house during the time I was there; knew Miss Perkins. Do not know when I first saw her. Saw her at these balls several times; two or three, perhaps more. When I saw her at the balls, I never saw any hugging, kissing, or any other impropriety at these balls. I would not have taken my wife there if there had been anything wrong going on. I never saw on the part of Miss Perkins at these balls any conduct otherwise than as that of a perfect lady.

CROSS-EXAMINATION.

The first ball I was at was in July, '82. I think Miss Perkins was there that night, but could not say. Think with Brewster, but could not swear to that. The next time was probably just after harvest, when the boys had money in their pockets. It was in August or September, perhaps later. Do not know who brought her. The next party was about Christmas or New Years. I was there. I was at all the balls given there. Do not know if Miss Perkins was there or not. The next party was about the 18th of May, '83. Do not know if she was there then. The next party was on the 4th of July, '83. I think Miss Perkins was there, but I am not sure. Do not know if she had an escort. I did not see her come nor go. I usually went at about 9 o'clock and retired at 12. The parties usually broke up about daylight. The young lady might have been hugged or kissed and I not know it; it is barely possible, but I do not think it likely; sometimes I stayed till morning; I have no knowledge of what happened outside of the ballroom, nor of any time when I was not present.

MR. ROBERT BRUCE METHVIN

Was the next witness called for. This witness testified that he lives at Springville, Ventura county; knows Cawelti; has known him well for twelve or fourteen years; had a conversation with him in January, 1886; Cawelti said he expected to be a witness in the Baldwin case and that if I would go along with him there was money in it for both of us.

IN CROSS-EXAMINATION

The witness told circumstantially all that occurred between the two, giving time and place and all that was said, including the point to be testified on as to the scene between Sweeney and Miss Perkins; I came to the door of the court with Emil Harris this morning; Cawelti proposed this to him; I knew he wanted me to commit a perjury; he knew me well; I do not know why; I never did commit a perjury; I thought it was a very foolish proposition; I told him he was foolish; Harris had asked me what I knew; no one told me what to swear; I get nothing out of it; Mr. Ben Williams told me I had to come; I got the money from my brother; I did not tell Williams what I knew; I told Budd Sweeney if Cawelti made such statements to send for me if he was going to get into difficulty; I got $10; I do not know who will pay it back. I got here last Saturday evening. Live 65 miles from here. Do not know where I will get my mileage from. The only conversation I had was in the lawyer's office here. Went to Santa Monica yesterday.

MR. JAMES H. CLARK

Said: I reside on my ranch near the Azusa. Am brother-in-law to the plaintiff. I know Ike Harris. He worked for me in January, 1883. At that time Harris told me he wished me to intercede with Louise Perkins as he wished to marry her. We were grubbing a piece of land.

MRS. PERKINS

Was re-called here to testify in rebuttal. She said: I know a man named W. E. Campbell. At my house at Fulton Wells. He came to my house about November 9th. He brought a lady with him, a stranger to me. He came in a team. At that time he said in the presence of my husband and Louise that he knew nothing against the Colton House, nor against Mrs. Hunter.

I know Mr. Blackley. I have seen him, but I do not think I would know him now if I saw him. He was at my house at Fulton wells about the last of June. My daughter was there at the time. Blackley said to us that he never had been engaged to Louise and that he would assist her in finding evidence. I was present at a camp-meeting at El Monte. Saw Mrs. Dexter there. My daughter was there. She did nothing improper on that occasion. At that time Mrs. Dexter asked her to go home with her. Miss Roxey Bryant also asked her to go with her. She went with Miss Bryant. I never told Mrs. Dexter that Louise was going to the Colton House to work as a servant. I never said so. I knew Budd Sweeney about two weeks before I left Ventura county. He never was in my house. There were six rooms in the house.

CROSS-EXAMINATION.

Do not think I would know Mr. Blackley now. Have seen him at my house perhaps three times at the most. I have not a very good memory for faces. Sweeney's father, I think, lived in Ventura county, but I did not know him; he did not live there in '79; saw him several years before; he was at our house. I do not know where he lived. It was several years ago. Budd helped us move here, and then worked for us until March 1, 1880.

MR. PERKINS,

Plaintiff's father, here was put again on the stand. He said: I was in Ventura county. Left there in December, about the first of the month, '79. The house I lived in had four rooms at first; afterward I moved another house to it of four rooms, making eight rooms in all. Budd Sweeney came there first about two weeks before he came here. Louise was there. I was at home every night. I think she met him a week or two before this. Sweeney never slept in my house at all in Ventura. he never occupied a room with us; saw Campbell at my house at Fulton Wells; he never was there but once; he had a lady with him; my wife and daughter were present. he said at that time he knew nothing against Mrs. Hunter or the Colton House.

CROSS-EXAMINATION.

Said here before my memory was bad on dates. Campbell was at my house six weeks or two months ago; have heard this matter spoken of by the lawyers and others; Mr. Barron's folks were there next day; Campbell came there in the early part of the day; he stayed there about three hours; I was just going out, but when I met him I stayed there all the time he was there; I neglected my work and remained there because I do not like the looks of the man. I thought he was there on some dirty business and I stayed; the looks of the man was enough; no whisky bloat can come around my house in these times and I not watch him; we were all watching him; he brought a lady called Mrs. Olivas; she seemed all right; my wife has a better memory than I have; if she says the house in Ventura has six rooms she is more likely to be right than I; know Sweeney's father; I think he was not there when we came away; Budd used to go there visiting his cousin; I did not see him until about two weeks before we left; he came to ask if he could help us to move, that he would help us for his grub. I do not think Budd could be there before and I not see him. I was not at his cousins. He might have been there but do not think it likely. The first time he went with Louise they went to church. Did not see it. Louise said so.

The plaintiff's lawyers had been looking for Mrs. M. A. Thomas who had been subpoenaed here and failed to put in an appearance. Mr. White here asked for an attachment for the defaulting witness. A certificate was here presented by a physician stating that she was ill. It was ordered that the attorneys go and take her deposition at 1:30 and be back as soon as possible. Recess taken till 2:15.

AFTERNOON SESSION.

It was half past three before the lawyers who went to East Los Angeles to take the deposition of Mrs. Thomas returned. The Court had re-assembled at 2:15 but these gentlemen not having returned a recess of an indefinite length had been taken until they should return. It was ten minutes before the jury were in their seats and matters so arranged as to go on with the case. The first thing taken up was the testimony of Mr. Higgins. He said: I drive an express wagon. Came here in '75, 16th day of July. Have been in express business 7 years. Know Mrs. M. A. Thomas. I was in the house of Mrs. Thomas when Mrs. Franklin was present on the 10th instant. Mrs. Thomas at that time said she knew nothing of the Baldwin case, nor of anything about it. That she met the young lady once in a street car Mrs. Thomas said, in speaking of the case: I do not know anything of the case. I saw the lady once in a street car. I saw Mrs. Thomas to-day, as I passed her house.

CROSS-EXAMINATION.

I heard her say this Wednesday. We were both together. Mrs. Thomas pointed to the same persons. I do not know what it means. I do not know the people. I never saw Mr. Baldwin. I saw the young lady once. I think there was a young girl there at the time. Know Mrs. Thomas for the past two or three years. Know her husband. There was nothing she said regarding this case. She said: I do not want to go. I told this; I was reading it and told Mr. Herbert about it. I went over to Mrs. Franklin's about it. I did not remember the date and went to see her about it. This being all the use there was for this witness, his place was taken by

MRS. HUNTER,

Who had testified before. She said at this time: I know Mr. Strickland. He kept the hotel when I married Mr. Laird. Have known Strickland for 9 or 10 years. I was at the hotel the day after he was attached. He borrowed a trunk from me and afterwards bought it. This was objected to by Col. Wells. The objection was sustained. Strickland kept the hotel until some time in '82 and then Mr. Laird took charge of it. I know Mrs. Tyler. She was there when Strickland was there. She came from Arizona. Her husband sent her money to pay her board. She remained there after we took possession about six months. She left about the first of April. She was not there when Miss Perkins was in the house. I sent her away on account of her conduct. I remember a colored women who was employed at the hotel for about two weeks. I sent her away on account of her conduct. She was always meeting Mr. Hughes out from time to time. The girl told her so. (Objection as to what was said by the colored woman sustained.) She went from my house to Riverside. She was not at my house at any time while Miss Perkins was there. She left my house about the 1st of April. The room No. 1 was in 1883 up stairs. The rooms by the parlor were 9, 10 and 11. The one by the parlor was No. 9. Number 1 was occupied part of the time by myself and part of the time by Campbell. This man went from my house to the European at San Bernardino; know Mr. Williams; he owes me $55; at the time when Miss Perkins was at my hotel Mr. Hunter was barkeeper; after he left Mr. Keyser helped me; the room is 8x18; it is off the dining room; there are two doors; we often have to go through the bar room to get to the dining room; it was used as the office; the register was kept there; it was the only office; Mrs. Shorb came to the Colton House about the last of April or first of March; Shorb brought her there; he said she was to be married to him in about two weeks. [This was ordered to be stricken out as hearsay evidence.] I never told Miss Perkins anything of Mrs. Shorb's character; at the Colton House I never rose from the table where Halstead and my mother sat and went into another room, remaining there for some time; nothing of this sort ever occurred; there never were any improper relations between myself and Mr. Hunter; I never was intoxicated at the hotel; I never on any occasion used profane or vulgar or dirty language; Miss Perkins, while at my house, was never under the influence of liquor; it was very warm when she was there and she drank a great deal of lemonade; Mrs. Shorb never did anything improper that I knew while she was there. Miss Perkins left there in July. I knew "old Mr. Earp." At the depot in this city in had a conversation with him; I had a conversation with Mr. Earp. It was just about the time this suit began. At that time Mr. Earp said he knew nothing against me or against the Colton House. He had always been my friend. While Miss Perkins was there there was no ball at the hotel. I had a social, that was all. The dance which Earp helped me about was in February, 1883. The social was simply the boarders and a few friends. Mr. Campbell and his wife were there. After the refreshments they cleared the dining-room and had a dance. While there Miss Perkins never went out riding to my knowledge except with me. She assisted me at anything I wished her to do. She was not employed by me. When we wanted water in the dining-room we went to the bar-room for it. The ice was there and the lemons. She went for ice; so did I. I know Meeks. He brought lemonade to us in the dining-room. Do not remember his bringing any in the parlor.

On cross-examination she said she had said there was no dance; it was a social; and afterwards they danced a little, the same as she said now.

MR. NAPOLEON BOURSEY,

Of Los Angeles, came next. He said: I am a shoemaker. Was here in 1883. Was at Colton three months of that year—June, July and part of August. I boarded at the Colton House. I saw Miss Perkins there and Mrs. Laird. Room No. 1 was at that time upstairs. I am sure it was not back of the parlor. I never saw Miss Perkins drink anything except lemonade. Saw her every day. Saw Mrs. Laird every day. I never saw any improper conduct on the part of these persons while I was there. At that time Colton was a small place. I never heard of Mrs. Hunter swearing or using vulgar language around the hotel. If she had so behaved I think I would have known it.

Mr. Edwin Hunter was the next person called to the stand. He said: I am a general painter. I am employed now in the C. P. car shops at Sacramento. I am 36. I went to Colton on the 16th of September, 1882. At that time Mr. Strickland kept the hotel. I went there to board. I boarded there from that time to the 2d of July. I was clerk at the house for a short time—three months in all. I began to clerk there about May 1st, 1882. When I was clerking there there was a woman named Tyler; I remember when Miss Perkins came there; at that time Mrs. Tyler was not there; she was ejected from the house; there was a negro woman there as a waitress for a short time; she was gone, I think, before Miss Perkins came; she was requested to leave for improper conduct. I know W. E. Campbell; do not remember just when he came there; he was there several times; he always came when he was in Colton; he brought his wife there, it was in 1883; he remained there off and on several times, with his wife he was there two or three weeks; he had not said anything as to going away from the hotel; he never said he wanted to leave the hotel; I was clerk when he came there with his wife and when he went away; he went from there to a private house; Mr. Campbell told me that a lady had been talking to him to go to a house with high ceilings; the Colton house is an old house with low ceilings and Colton is very warm. After this when he came to Colton he invariably came to the Colton house. Last July, when I and my wife and little baby were at Colton, he left the Palace and came to the Colton house to stay. As to the character of the women who Stopped at Colton house in June and July. I never knew anything against their character except by hear say. I never saw anything wrong. Mrs. Shorb behaved herself very well. She was nearly always in her room. This was in No. 8. It is opposite No. 1. Mr. Campbell in his bridal trip was in No. 8. It was in '83. Under date June 17th the entry W. E. Campbell and wife, San Francisco, was found, and under date June 21st was found the same entry as in room No. 1. I kept the register. It was in the bar. The bar was as much the office as the bar. Doors led from the bar to the dining room. And also doors led into the street. Under date June—an entry is found of a man from "H—'s half acre" and from S— tail bend, etc., etc. The witness said these entries were not there when I left the hotel. The register lay on the desk near the door leading into the dining room. I know C. F. Perry. He was there at the lumber yard with his father for a while. Since this case opened I have not examined the register. These entries I never saw before. When I left there the register presented as good an appearance as any ordinary hotel register. The entry "Henry Ward Beecher, Brooklyn, N. Y., was read and the witness said that was not there when I was clerk. Between me and Mrs. Laird there never were any improper relations of any character. The facetious entries were gone further into and the witness said these were certainly made on the register since I had it. There is no such room in the hotel as 406, nor such room as "B." There is a No. 7. Under June 29th the name "John Doe" was not on the register when it passed from my possession. I do not know who made the entry. The last six or seven on the book, "Tom," "Dick" and "Harry," etc., etc., were not in the book at the time it passed out of my possession. Under July 3d and six others on the same page these entries were all made after I left the hotel. There is such a room as No. 13. It is not in the hotel proper. Under date of July 5th the writing "Stotard" is not the way the man I know by that name spells his name. I do not think it is his handwriting.

Mr. White said he could not get done with this witness in less than half an hour. He has Miss Perkins to put on the stand again and he thinks that is all the testimony he has. Adjourned until to-day at 9 o'clock.

Pacific Coast Cable Roads.

San Francisco and Los Angeles are the only cities on the coast that can boast of cable roads. The City of Oakland is waking up to the importance of a cable road system, and has lately granted a franchise to Mr. J. M. Thompson, the contractor and builder of both cable roads in this city, and Hon. W. W. Cameron. Their franchise calls for a road from the intersection of Seventh and Franklin streets in Oakland to the city limits, and thence to Piedmont, This road will be a double track, put up in the most substantial manner. The single track roads on Second and Temple streets in this city are the only single track roads in America. Mr. Thompson, who is recognized as one of the best cable road men in America, is in the city on a hurried visit to provide for the rapid completion of the Temple-street road, and note the progress of the several projected roads which will undoubtedly be constructed in this city within the next twelve months. A cable road from the terminus of the Second-street road to and through Boyle Heights either by the First-street route or some other within the next twelve months is almost a certainty, and it is believed several other roads in embryo will materialize within the same time.

Cure For Piles.

Piles are often preceded by a sense of weight in the back, loins and lower part of the abdomen causing the patient to suppose he has some affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, flatulency, uneasiness of the stomach, etc. A moisture like perspiration, producing a very disagreeable itching, after getting warm is a very common attendant. Blind, bleeding and itching piles yield at once to the application of Dr. Bosanko's Pile Remedy, which acts directly upon the parts affected, absorbing the tumors, allaying the intense itching, and effecting a permanent cure. Price 50 cents. Address the Dr. Bosanko Medicine Co., Piqua, Ohio. Sold by C. F. Heinzeman, agent, Los Angeles.

Lost Faith in Physicians.

There are innumerable instances where cures have been effected by Scovill's Sarsaparilla or Blood and Liver Syrup, when the patient had been given up by physicians. Success at Home and Abroad.

The firm of S. Brown & Co., No. 213 South Spring street, have been meeting with good success in introducing in the towns and cities in the northern portion of this State, their wonderful hair reproducer and tonic known as the California Golden Age. Mr. Brown made a trip, visiting all towns along the Coast to San Francisco and met with great success. Many prominent gentlemen giving the article a trial pronounce it a good article and believe that in a short time it will take the lead in hair preparations. In several cases hair was made to appear in the short space of ten days upon bald heads, and in some of these cases the gentlemen were men of prominence. This firm is shipping their tonic in large and small quantities to all parts of the State. California is turning out many new and wonderful articles, and Los Angeles is doing her share, as the California Golden Age has had its birth and growth in this city and its sale has been very large, it giving satisfaction in every case and is recommended by many leading and prominent citizens as being a good hair tonic and hair reproducer. The firm of S. Brown & Co. warrant their preparations to be free from all oils or poisons. Send them your order, if its only for one bottle. Give it a trial; it costs but one dollar a bottle, or six for five dollars, and it is cheap at that price to any one that loves beautiful hair and a scalp free from dandruff. Their office and factory is 213 South Spring street, Los Angeles, S. Brown & Co., proprietors.

Attention, Confidence Boys.

By reference to our advertising columns it will be seen that President Brierly, of Confidence Engine Company, has called a meeting of the company to take steps to celebrate Washington's Birthday. This day has always been observed by the Confidence boys, and while the old tried and true company is supplanted by the paid department, it is fitting that they should give an entertainment on the twenty-second and go out in a blaze of glory. It is safe to predict a magnificent success, as the people feel thankful to the boys for their long years of faithful service. It is particularly desired that there be a full attendance to-morrow night, as steps will be taken to perpetuate the existence of the company.

A Blessing to the Human Race.

Abietene which can only be produced in the Golden State is destined to be one of her chief products and be as much of a blessing to the world as her wheat fields. Abietene has great healing and purifying properties, and by incorporating it into Abietene Cough Balsam as we have, it makes a cough remedy that has no equal. And there is nothing that will heal the lungs so rapidly and cure all throat and lung troubles so thoroughly. It contains no opium. Price 75 cts. Sold by C. F. Heinzeman.

A Runaway.

Sunday afternoon Edward Booth with his family and a party of friends were taking a little airing in the country. The team got away from them out on the Old Mission road, the party was thrown out and the team made quick time with an empty carriage to the city. A brakeman named E. Charles caught the team near the Southern Pacific freight depot. The carriage was uninjured. Mr. Booth had his head cut and Mrs. Booth suffers from a sprained ankle. The rest of the party escaped unhurt.

That Dirty Dandruff.

Dandruff is dirty and disagreeable in every way. It soils the clothing continually, and is accompanied by a hardly less annoying sensation of itching. The scalp is diseased. There is nothing in the world so thoroughly adapted to this trouble as Parker's Hair Balsam. It cleanses and heals the scalp, stops the falling hair and restores its original softness, gloss and color. It is not oily, highly perfumed, an elegant dressing. Very economical, as only a small occasional application keeps the hair in perfect condition.

Recorded.

The following papers were filed for record yesterday in the County Recorder's office: 38 deeds, 9 mortgages, 7 releases of mortgages, 8 miscellaneous papers and 4 marriage licenses.

Opening of Nadeau Restaurant.

The opening of the Nadeau Restaurant was quite an event. For a year or more our visiting friends and home people have been casting about for the best place to get something really nice to eat, where it was not so crowded one could not get enough to eat without feeing a waiter to neglect someone else. Mr. W. W. Ross, a popular caterer lately from the East, seeing the situation and believing he could grasp the situation, has fitted up the most elegant eating house in the city at 118 West First street, Nadeau Block, which was thrown open to the public last evening with great eclat. From half-past 5 to half-past 8 this magnificent eating-house was crowded to suffocation with a fashionable crowd of good livers, to test the capacity of the house and taste the good things provided for the palate by a caterer who has acquired the art to perfection. The large show windows on each side were freighted with the most appetizing display of fish, flesh and fowl, garnished in the most artistic manner with the choicest crisp vegetables and delicious tropical fruits and flowers, the whole illuminated brilliantly with electric lights and gas, combining with the chaste and costly arranged tables and table ware a display fit for the gods. The service at the tables embraces the most popular waiters in the city, who are ambitious to please. Al Young, *chef de cuisine*, Con Hogan, head steward, and Larry Dillon, head waiter, take as much pride in the Nadeau as Mr. Ross, the proprietor, and will do their share toward maintaining the popularity of this popular *cafe*.

YATES—Evaline Yates, wife of James P Yates and daughter of John and Evaline Bryson, died February 14, 1886, at her father's home in Los Angeles, California, aged 23 years, 3 months and 15 days. [Chicago, Ill., and Lancaster, Pa., papers please copy.]

The funeral will take place to-day, February 16, at 2 o'clock P. M., from the residence of John Bryson, Sr., No. 325 South Fort street. Friends and acquaintances are respectfully invited to attend. Carriages to Rosedale Cemetery.

A Pasadena Highland Home.

Seekers of home property should visit the grounds to be sold at auction Thursday, February 25th, in Pasadena Highlands. Too much in their praise cannot be said; a visit alone will convince you that perfection of location is a moderate estimate of their actual worth. Residents of Pasadena who saw this locality after having purchased their homes in the valley have expressed sincere regret that they did not first examine this most beautiful site.

We do not wish you to rely solely on our representations, but do ask and urge you to go out and see for yourself. The grandeur of the scenery will well repay cost and trouble. Take your marine glass with you, as the scenery is limited by the limit of vision only. So long as you intend to build a home somewhere in this vicinity why not first see if what we claim is not true, viz: That no site near Los Angeles compares with it in beauty of scene and magnificence of surroundings. Prominent Pasadenians have frequently expressed regret that their town did not locate its center at this point. It was not done for the sole reason they were at the time ignorant of its merit, not having seen the ground.

Mr. G. A. Swartwout, the owner, until the day of sale personally looks after visitors. A special excursion train will be run on the day of sale, leaving at 10 A. M. for accommodation of guests. Round trip tickets, 50 cents; for sale by Messrs. Stoll & Thayer, stationers, No. 3 South Spring street, on and after Thursday, 18th inst., to day before sale. See auction and excursion advertisement in another column.

J. M. BATCHELOR & Co, Auctioneers.

They Don't Drink in Pasadena

Whisky or any intoxicating liquors. When they get such cold, clear, sparkling water from the mountain who would. If Los Angeles could have such it would be worth more than a gold mine. You can enjoy that luxury by attending the sale of John C. Bell, the auctioneer, in the lovely orange grove, formerly Dr. Congras'. On the arrival of the train you will find those young gentlemen, Ward brothers, waiting with their carriage to take you to the spot and return you in time for the home train. Fine drainage, no hills to climb, lovely climate, everybody happy, schools, churches, a fine neighborhood. Go and see it, and if you do you will surely buy.

Telescopic Views.

The planets Saturn, Venus and the moon, are now very favorable for observation. The lovers of astronomy should not neglect the opportunity of taking a look at them through Mr. Grosser's fine refractor, placed in front of the Nadeau Block.

Cheap Excursions to the Country.

True to its desire to cater to the popular wants, the San Gabriel Valley Railroad will on next Saturday inaugurate a series of cheap excursions, which will be continued on every Saturday and Sunday thereafter. Tickets from Los Angeles to Pasadena, Lamanda Park or any intermediate station and return will be sold for the low fare of sixty cents. The splendid grove belonging to the road and in immediate proximity to the station at Lamanda Park offers a delightful place for picnic, family or excursion parties, and is being put in order for their convenience.

We have received a lot of Boys' Suits and Knee Pants, the latter we offer at 75c. a pair. You cannot buy the cloth for it. Suits from $2.50 upwards.

IN MEN'S FURNISHING GOODS

You will find big bargains. We have a very large stock and our prices are beyond comparison with others. Recollect one thing, that our great success in business is the result of selling goods cheap. When we first came here the business was controlled by two firms. We started in selling goods cheap and they persisted in selling them dear. The result is that to day we do the business and they repent their folly in letting us get their trade and the public's confidence away from them.

Recollect another thing. We claim that the man, firm or concern that sells the same quality of goods for the least money is the house to trade with, and it is for you to ascertain who does sell the cheapest. Of course the People's Store claims to be that house, and if you trade with us you will find it so. We have confidence in our goods and in our prices. We know that when we mark an article it cannot be sold with a profit at a less price. Now the item of shoes. We are confident beyond a doubt that our shoes are better and sold for less money than any ones. We buy them for cash, which is more than any one else can say. We discount our bills and that is more than others can say. We have 17 distinct departments; 17 different businesses out of which to make up a combined profit of 22½ per cent.

It costs us 12½ per cent. to sell goods and we charge a profit of 10 per cent. to cover every other item, and deducted from this is 4 per cent., allowed for cash discount, leaving us an expense of 18½ per cent., to be made out of 17 department. None can be run successfully under 25 per cent. profit, and many as high as 200 per cent. Hence it follows that we sell cheaper than any house in town.

We offer you bargains in every department of our stores. We haven't the space to enumerate, but will be pleased to show them to you in our stores. We have received big invoices of shoes and making this department a special feature. It will pay you to come in and see what we have and then, if your are pleased, purchase. ☞COUNTRY ORDERS SOLICITED.
